

Juno 01

Easily broken up into separate living and bedroom wings, Juno is flexible enough to work across a range of sites whilst maximising solar gain and cross flow ventilation. The central connection has the ability to act as an air lock between the two modules, reducing heat loss or gain as you enter the front door and encourages efficient use of heating and cooling systems. Juno provides generous space for carefree living, making it well suited to large country and beach properties.

Size: 63 (m2)

Dimensions: 4.3 x14.6 (m)

Rooms: bedroom
bathroom
Euro laundry
living area
dining
kitchen
